

# HYDRACTIVE COMPLEX

## DAILY HYDRATING MOISTURIZER pH 4.2

### SKIN TYPES

All

### SKIN CONDITIONS

Mature, Sun Damaged, Hyperpigmented, Acneic & Sensitive

### PRODUCT OVERVIEW

This light, oil-free cream contains glycosaminoglycans, aloe vera and Canadian Willowherb which are proven to reduce inflammation. These actives also stimulate, clarify and detoxify the skin. The squalane, panthenol and calendula calm and soothe irritation. An excellent choice for oily and sensitive skin.

### KEY ACTIVES

Hordeum Vulgare Extract &  
Solanum Lycopersicum

Santalum Album Extract  
Phellodendrom Amurense Bark  
Extract, Hordeum Distichon  
Extract

Glycosaminoglycan

### BENEFITS

Reduces Trans Epidermal Water Loss (TEWL). Increases skin's natural hydration levels and ceramide production. Reduces inflammation and the natural lipids provide a protective skin barrier

Reduces Trans Epidermal Water Loss (TEWL)  
Barrier function protector

Active proteins inhibit damaging enzymes and help to reduce the symptoms of rosacea, redness and irritation
